

Investment Holding Proxy Voting Policy

It is our intention to cast a vote each time we are provided an opportunity to do so. At this point in time, proxy voting is an imperfect process. We often receive voting materials with little or no time to research the matter on which we are to cast a vote. Therefore, lacking a compelling reason to do otherwise, we vote all proxies in favor of the board of directors recommendations.

You may elect to vote investment holding proxies on your own and we encourage you to do so. Please contact your investment custodian if you would like to begin voting proxies for your investment holdings.
